

Advanced Materials *SAFETY 2023*

8-10 November 2023
Saarbrücken, Germany

Confirmed speakers

Barbara Rothen-Rutishauser
Andrea Hartwig
Dirk Walter
Chris Eberl
Hubert Rauscher
Agnieszka Jastrzębska
Ajay Patil
Seema Agarwal
Robert Rallo
Francesco Salu

Conference topics:

Safe and Sustainable-by-Design
Impact on human health
Environmental aspects
Reliable data for computational modeling
Communicating materials safety

About the conference:

Organized as a highly interdisciplinary forum for sharing recent advances and discussing current and future challenges in the field of advanced materials safety, the meeting will bring together leading scientists to discuss scientific, regulatory, and application-oriented aspects of advanced materials safety in depth and from different viewpoints, with the aim to *design safe and sustainable, functional, and accepted advanced materials*.

Abstract submission for posters is still open!
